

# Enroll-HD

On December 9<sup>th</sup>, 2016, the Enroll-HD Data Safety Monitoring Committee met to review the clinical data collected in the Enroll-HD study. Particular focus was paid to the reportable events to ensure the safety of the study participants. It was determined after careful review that Enroll-HD does not expose the participants to unreasonable or unnecessary research risks. The decision was made by the committee to continue with the study as planned with no modifications required to the protocol.

  
Arvid Heiberg

Chairman, Enroll-HD Data Safety Monitoring Committee
